

KODAK RELIABLE IMAGE TIP # 22

What are Molecular Sieves & where can I get them?

- Molecular Sieves or desiccants are chemical compounds that act as absorbers of water, hydrogen peroxide and other oxidants.
- These sieves are also used to offset the vinegar syndrome caused by the decomposition of acetate film support.

CAT #	Film Format	Content
852-9596	16mm	3.5 grams 400 ea.
855-5872	35mm	7.0 grams 200 ea.
859-7684	105mm	12.5 grams 125 ea.
